Foreword

The National Education Policy 2020 envisages a system of education in the country that is rooted in Indian ethos and its civilisational accomplishments in all domains of human endeavour and knowledge while at the same time preparing the students to constructively engage with the prospects and challenges of the 21st century. The basis for this aspirational vision has been well laid out by the National Curriculum Framework for School Education (NCF-SE) 2023 across curricular areas at all stages. Having nurtured the students' inherent abilities touching upon all the five planes of human existence, the pañchakośhas in the Foundational and the Preparatory Stages have paved the way for the progression of their learning further at the Middle Stage. Thus, the Middle Stage acts as a bridge between the Preparatory and the Secondary Stages, spanning three years from Grade 6 to Grade 8.

The NCF-SE 2023, at the Middle Stage, aims to equip students with the skills that are needed to grow, as they advance in their lives. It endeavours to enhance their analytical, descriptive, and narrative capabilities, and to prepare them for the challenges and opportunities that await them. A diverse curriculum, covering nine subjects ranging from three languages — including at least two languages native to India — to Science, Mathematics, Social Sciences, Art Education, Physical Education and Well-being, and Vocational Education promotes their holistic development.

Such a transformative learning culture requires certain essential conditions. One of them is to have appropriate textbooks in different

curricular areas as these textbooks will play a central role in mediating between content and pedagogy — a role that will strike a judicious balance between direct instruction and opportunities for exploration and inquiry. Among the other conditions, classroom arrangement and teacher preparation are crucial to establish conceptual connections both within and across curricular areas.

The National Council of Educational Research and Training, on its part, is committed to providing students with such high-quality textbooks. Various Curricular Area Groups, which have been constituted for this purpose, comprising notable subject-experts, pedagogues, and practising teachers as their members, have made all possible efforts to develop such textbooks. The book for Physical education and well-being, titled *Khel Yatra* for Grade 7, is meticulously designed to develop motor skills and engage children in the team sports of Badminton, Football and Kabaddi. Age-specific aspects of Yoga are designed to lay the foundation for healthy living. The textbook aligns with the competencies included in the NCF-SE 2023 for this stage.

Khel Yatra emphasises the importance of physical activity and the values and dispositions essential for life. It incorporates cross-cutting themes, such as inclusion, gender equality, and cultural rootedness.

The content and activities are designed to encourage peer group learning, and enrich the educational experience for both students and teachers. While this textbook is valuable, children should also explore interesting local games and play with friends. This book is not only useful for school learning, but is a valuable resource for parents and community.

However, in addition to this textbook, students at this stage should also be encouraged to explore various other learning resources. School libraries play a crucial role in making such resources available. Besides, the role of parents and teachers will also be invaluable in guiding and encouraging students to do so.

With this, I express my gratitude to all those who have been involved in the development of this textbook and hope that it will meet the expectations of all stakeholders. At the same time, I also invite suggestions and feedback from all its users for further improvement in the coming years.

About the Book

The *National Curriculum Framework for School Education 2023* (NCF-SE 2023) recognises the criticality of the health and well-being of individuals as a key factor for success in all aspects of life. Considering the focus on holistic well-being, NCF-SE has mandated Physical Education and Well-being as a core curricular area for all stages of school education. To help the teachers and students achieve curricular goals of Physical Education and Well-being, for the first time a textbook has been designed for Grade 7. This book enables students to experience the joy of playing, explore diverse physical activities, practice fitness skills, learn basic sports skills, and immerse in the world of yoga. Sports and physical activities teach important motor skills, socio-emotional awareness and regulation, associated cognitive abilities, as well as the values of self-discipline, hard work, teamwork, and a gracious acceptance of one's strengths and vulnerabilities.

To achieve the goals of fitness, sports and holistic well-being, the Grade 7 textbook is designed to have five units.

1. Foundational Basis of Physical Education and Well-being
2. Physical Motor Fitness
3. Fundamental Skills of Badminton
4. Fundamental Skills of Football
5. Fundamental Skills of Kabaddi
6. Yoga

In Unit 1, students explore the connection between physical education (PE) and well-being, emphasizing its impact on personal and social

behaviour. Through playing games and engaging in discussions, students will understand the importance of living a healthy lifestyle and how physical activity adds to their overall enjoyment and success. Students will also learn about the safety measures to minimize the risk of injuries and create a healthy environment for the students.

In Unit 2, students learn different fitness components like endurance, strength, flexibility, and balance. The main aim is to understand how each of these components contributes to overall health.

In the Units 3, 4 and 5 focus is on learning new games. Badminton is introduced in Unit 3, Football in Unit 4 and Kabaddi in Unit 5. Through interactive sessions and group exercises, students will discover the excitement of sport and health advantages of physical activity. The emphasis will be on inclusivity, team cohesion, and enjoyment of movement.

In the last unit, students immerse in the holistic nature of yoga. They learn about *Yama* (social discipline) and *Niyama* (Personal discipline) to inculcate healthy habits for positive behavior. Systematic practice of various *yogasanas* starting with *Sūkshma Vyāyāma* (loosening exercises), preparatory breathing practices and step-by-step performance of each *asana* helps our body to be flexible, strong, balanced and disease free. Various techniques of *Prānāyāma* strengthen the lungs, improves functioning of major systems of our body, calm down the mind, improve concentration and help in achieving overall harmony and well-being. To explore the world within us and experience deep sense of peace, tranquility and bliss, students learn different techniques of *Dhāraṇa* (single pointed concentration) and *Dhyāna* (meditation). Learning various yogic practices lays foundation for long and healthy life.

In this book, apart from learning the games and physical activities, students will learn to follow rules, understand the importance of safe practices and fair play, work harmoniously in groups, treat each other with courtesy and respect, as well as, help each other, and

experience the joy of playing together. Inculcation of these values and dispositions will partly happen while children are engaged in the physical activities or games and partly, they will be reinforced during circle time after the game. Sufficient time must be given for circle time during the Physical Education and Well-being periods.

Structure and Flow of Classes

NCF-SE 2023 has recommended 120 periods for physical education and well-being in Grade 7. Suggestive timetable assumes at least 5 periods of 40 minute each, per week. NCF-SE recommends allocating block period (2 periods together) for physical education and well-being. If it is not possible to allocate two block periods and one single period every week, it is necessary to design single periods with different focus to ensure sufficient time for activities, game and circle time.

Suggestions are given below for two different scenarios of timetable.

- Scenario 1 – Five single periods per week.
- Scenario 2 – Two block periods for Units 1 to 4 and single period for yoga.

Scenario 1: Three different types of sessions have been visualised to effectively use the limited time in each period and achieve the learning outcomes.

- Type 1: Maximizes game practice.
- Type 2: Maximizes circle time after play to provide sufficient time for discussing cognitive and socio-emotional aspects.
- Type 3: Maximizes gamified drills to focus on one specific skill.

A sample time allocation for a 40-minute duration is given below for all types.

Period/Session Types				
Type 1	Warm-up – Preferably Gamified	Game Time	Cool- down	Circle Time

Time in Minutes	5	25	5	5
Type 2	Warm-up – Preferably Gamified	Game Time	Cool-down	Circle Time
Time in Minutes	5	15	5	15
Type 3	Warm-up – Preferably Gamified	Gamified Drills/ Mini Games	Cool-down	Circle Time
Time in Minutes	5	25	5	5

Scenario 2: (Highly Recommended) – A block period of 80 minutes can effectively maximize game practice, drills and circle time. Two types of sessions can be planned with block periods.

- Type 4: Maximizes game time and drills.
- Type 5: Maximizes game time.

Type 4

Block Period	Warm-up – Preferably Gamified	Game Time	Gamified Drills/ Mini Games	Cool-down	Circle Time
Time in Minutes	5	30	20	5	20

Gamified Drill is a mini game played between teams to target specific skills. Pure drills are not recommended at this stage.

Or

Type 5

Block Period	Warm-up – Preferably Gamified	Game Time Play 2 games	Cool-down	Circle Time
Time in Minutes	5	50	5	20

Note for the Teachers

For a joyful experience, safety of children and effective development of competencies, teachers may follow the instructions given below:

- Ensure adequate play area and that there are no obstructions in the play area.
- For group activities, mark the area into smaller blocks to prevent students from running into each other.
- While dividing the teams, make sure that the teams are fair and balanced in terms of bodyweight, height and skills required for the activity.
- Ensure that a first-aid kit is available and accessible.
- Ensure that students are treated with respect and they feel emotionally and socially safe.
- Provide regular encouragement and support to all the students.
- Ensure students have access to fair redressal of grievances during the Physical Education period.
- Encourage students to be aware of their surroundings while playing.
- Instruct the students not to aim at the opponent.
- Encourage the students to be careful while pushing or pulling the opponent in the activity.
- Ensure that students do proper warm-up and cool-down.
Encourage them to create their own routines.
- Provide opportunities to students for interactions before, during and after the class.

- Introduce sports skills gradually. Complexity can be increased by playing mini versions of the sport gradually building individual capacities such as observation, reflection, emotional regulation, expanding spatial awareness and peripheral vision, and making quick judgements based on gameplay.
- Discuss social capacities such as effective communication, collective decision-making, and working together towards a common goal, during circle time and at relevant moments in the sport.
- Encourage students to take more responsibility for building a culture of inclusive sports at school. Help them to take an active role in ensuring all students feel safe, motivated, and encouraged to play.
- Three sports are offered in this book, teachers has to opt any two as per the feasibility.
- Name of various sports introduced in this book are derived from various states, having different dilects. Teachers should encourage the students to learn correct pronunciation of these names.
